About Medent Medical

After 30 years supplying the medical profession, Medent Medical remains 100% kiwi owned and 100% committed to delivering to you the best of medical, surgical, pharmaceutical and equipment supplies whenever you need them.

BISMOS - The innovative inventory management tool

We wanted to make it easier for you to order, store and manage your medical supplies. We came up with BISMOS. A complete stock management and ordering solution that takes the pain out of supply management.

With the help of BISMOS you can:

- ✓ Automatically generate your next order by scanning products in your storeroom
- ✓ Easily check stock levels
- ✓ Improve practice productivity
- ✓ Cut medical supply ordering in half
- ✓ Reduce out of stock items
- ✓ And much more

[Discover how BISMOS can work for you](#)

Providing you the best of medical, surgical & pharmaceutical supplies

With a constantly expanding inventory with thousands of products to choose from, including all of the major brands, when it comes to [medical supplies](#) think of Medent Medical as your 'go to' company. We have been supplying the medical profession with the best of medical, surgical, pharmaceutical and equipment supplies for more than 30 years. That is 30 years of working for you to simplify your ordering needs. You simply won't find a faster, more efficient way to manage your inventory.

Ask how we can help you:

- ✓ Optimise your ordering process
- ✓ Streamline inventory replacement
- ✓ Facilitate easy online ordering
- ✓ Enhance your productivity
- ✓ Improve ordering efficiency
- ✓ And save yourself both time and money

For more choice, better service and expert advice on your medical supplies, [contact us today](#)

BISMOS AUTOMATED ORDERING AND STORAGE SOLUTIONS

- ✓ Save your time spent ordering supplies
- ✓ Reduce order error rate
- ✓ Easy checking of what stock you have
- ✓ Flexible modular system

BSN Delta Cast Elite

Description

BSN Delta Cast Elite is a polyester cast tape designed with ease of application and patient comfort in mind. The patented fibreglass-free casting material combines strength and rigidity with soft edges for enhanced patient comfort.

Provides rigid casting options for primary and secondary immobilisation, where strength and radiolucency are required.

Patented polyester substrate provides exceptional moulding, and the unique resin system ensures maximum lamination and end laydown for long lasting casts.

Features and Benefits

- ✓ Smooth cast with soft edges
- ✓ Fibreglass free
- ✓ Clean, easy to apply and remove
- ✓ Highly conformable
- ✓ Strong yet lightweight
- ✓ Durable to reduce cast breakdown
- ✓ Smooth finish
- ✓ Consistent set times
- ✓ Enhanced radiograph viewing

BSN Delta Cast Soft

Description

BSN Delta-Cast Soft is fibreglass-free and was designed to provide variable support to fractures and soft tissue injuries. Its semi-rigidity allows for more flexibility and mobility, thus helping to reduce immobilisation related problems such as atrophy or joint stiffness. As a result, the overall healing process tends to be shortened.

Features and Benefits

- ✓ Earlier patient mobility as cast will allow a limited range of movement
- ✓ Improved circulation, faster healing, shorter rehabilitation period
- ✓ Help avoid or minimise muscle atrophy and other immobilisation related issues
- ✓ Lightweight, breathable material offers high wearing comfort
- ✓ Smooth surface and edges for a snag-free finish
- ✓ Available in a wide range of attractive colours

BSN Delta Dry Cast

Description

The unique patented technology in BSN Delta-Dry® has created a water resistant cast padding which allows easy application by the clinician and affords the patient all the lifestyle benefits of a cast they can get wet.

Delta-Dry® is a water resistant padding while Delta-Dry® Softliner is a water resistant padded stockinette and can be used without additional padding.

Features and Benefits

- ✓ Better long term water resistance
- ✓ Offers more under cast protection
- ✓ Eliminates the need for stockinette
- ✓ Allows patients to shower, swim and bathe like normal
- ✓ No special tools are needed for application or removal
- ✓ Conformable gives patient increased comfort and protection

BSN Dynacast Prelude

Description

BSN Dynacast Prelude is a synthetic splinting system incorporating polyurethane coated fibre glass covered by polypropylene padding, to offer easy application for the support and immobilisation of fresh fractures and soft tissue injuries. It is presented in a foil covered roll format for flexibility in use and application.

Features and Benefits

- ✓ A single interlock knit layer of polyurethane resin-impregnated fibreglass
- ✓ The latest innovation in splinting
- ✓ Smoother
- ✓ More conformable
- ✓ Lamination free

BSN Gypsona* BP Plaster of Paris Bandages

Description

Gypsona bandages combine fast setting, high quality plaster of Paris with the conformable and stable interlocked weave of leno cloth. The bandage demonstrates minimum plaster loss while the rich creamy texture allows easy handling.

Features and Benefits

- ✓ Rapid immobilisation of fractures
- ✓ Leno cloth for good conformability
- ✓ Round cores for improved bandage handling
- ✓ Low plaster loss
- ✓ Moisture proof packaging

3M Scotchcast Plus Casting Tape

Features and Benefits

- ✓ Lightweight for easy mobility, strong and durable casting tape
- ✓ Water-activated resin lets you control working time
- ✓ Allows for weight bearing in 20 minutes
- ✓ Combines the benefits of a fiberglass casting tape with the handling ease of plaster
- ✓ Stretches to conform well to contours
- ✓ Porous weave allows the skin to breathe
- ✓ Contains a lubricating agent in the resin
- ✓ Available in a variety of colours and sizes to maximize patient preferences

CATEGORY: ORTHOPAEDIC PADDING

BSN Soffban Orthopaedic Padding

Description

Synthetic, protective orthopaedic padding, that blends excellent conformability and good cushioning, with a water-shedding ability that will keep the patients skin dry.

The padding tears quickly and easily around awkward contours, minimising patient trauma and enhancing ease of application for the clinical user

Soffban Natural tears and teases apart easily, aiding rapid application and reducing the risk of stressing the fracture. It is also autoclavable, making it suitable for use in theatre or sterile procedures.

Made entirely from rayon fleece, Soffban# Natural provides soft, comfortable cushioning and protection for the patient, yet still conforms well for easy shaping to all body contours and joints. Ideal for use under Gypsona plaster of Paris bandages, the SoffbanNatural fleece absorbs sweat and exudate, reducing the risk of skin maceration and irritation.

Features and Benefits

- ✓ Highly conformable
- ✓ Easily tearable
- ✓ High loft
- ✓ Feathers out
- ✓ Low moisture absorbency
